

A/C SPECIFICATIONS

Air Conditioning Specifications				
Description		In-Lbs	Ft-Lbs	Nm
Refrigerant Type	R-134a			
Refrigerant Capacity:	1.75 lb (0.8 kg)			
System Oil Type	PAG Refrigerant Oil			
System Oil Capacity	—			
Accumulator (plus the amount drained from original)	2 oz (60 ml)			
A/C condenser	1 oz (30 ml)			
A/C Compressor	2 oz (60 ml) *			
Evaporator	3 oz (90 ml)			
Torque Specifications:	—			
A/C compressor mounting bolts		—	37	50
Accumulator to evaporator fitting		—	21	28
Compressor suction/discharge hose bolt		—	24	33
Compressor discharge hose to condenser fitting		—	21	28
Compressor suction hose to accumulator fitting		—	35	48
Evaporator tube fitting at orifice		—	18	25
Evaporator tube nut at condenser		—	21	28
Evaporator tube nut at evaporator		—	21	28
Compressor pressure relief valve		80	—	9
* New compressor assemblies may be shipped dry. If more than the specified amount of PAG oil was drained from the removed compressor, add the equal amount to the replacement compressor.
